PROPANE SAFETY TIPS

• To keep you and your family safe from carbon monoxide poisoning, change your furnace filter regularly!

• For safety reasons, you should not pile things around your propane tank:

The NFPA (National Fire Protection Association) code states: "Loose or piled combustible material and weeds and long dry grass shall not be permitted within 10 ft (3.0 m) of any LP-Gas container."

Please look around the tank & see if you are in compliance.

Equal Payment Plan

Our budget program is called Equal Payment Plan (EPP). This is a great way to help you save money & budget for your gas utility.

- Your yearly usage will be evaluated and a monthly payment will be determined.
- Your payment will be automatically withdrawn from your checking account by Electronic Funds Transfer (EFT) on the date you choose.
- You will automatically be put on a route which will save 10 cents per gallon and eliminate outages & low propane levels.

The first payment needs to start in April, so please let us know if you'd like to be evaluated for the EPP by March 15th. Visit our website to see a sample contract.
